

FOURTH BIENNIAL REPORT.

The fourth biennial report of the Board of Directors of the Society was read by F. G. Adams, Secretary, as follows:

The Board of Directors has to report the following accessions to the collections of the Society during the two years ending January 20, 1885:

Bound volumes added to the library, 1,039; unbound volumes and pamphlets, 3,851; volumes of newspapers and periodicals, 1,210; single newspapers and newspaper cuttings containing special historical material, 697; maps, atlases, etc., 51; manuscripts, 7,218; pictures, 170; miscellaneous contributions, 412; scrip, currency, etc., 107.

From this statement it will be seen that the library additions of books, pamphlets and newspaper files during the two years number 6,100 volumes. Of these, 5,675 have been procured by gift, and 425 by purchase. The total of the library at the present time is as follows, namely: 5,492 bound volumes; 11,095 unbound volumes; 3,735 bound newspaper files and volumes of periodicals; in all, 20,322 volumes.

The books and pamphlets are in much the larger part either of Kansas publications, or those relating to the Western country, or are public documents and scientific publications of the Government, and all contain historical, documentary, or scientific information of permanent value.

In the department of newspaper files, our library has probably grown more rapidly than that of any other historical society in the country. Of these accessions may be mentioned a gift by Hon. Albert Griffin, of Manhattan, of thirteen volumes of newspaper files, consisting in part of the Mobile (Ala.) *Nationalist*, published by him soon after the war, and in part of early Manhattan newspapers.

Mrs. L. H. Delahay, of Leavenworth, has given the Society a file of the

Kansas Territorial Register, of which her husband, Hon. Mark W. Delahay, was editor and proprietor, running from July 7, 1855, to the date of the destruction of the office by a Pro-slavery mob in Leavenworth, December 22, 1855.

Rev. A. H. Clapp, Treasurer of the American Home Missionary Society, New York city, has given our Society thirty-four volumes of the *Home Missionary*, a publication which contains an invaluable store of information respecting pioneer religious work in the West, and also relating to the western aboriginal tribes.

The Society has purchased thirty-four volumes of files of the *New York Tribune*. These *Tribune* files are consecutive volumes from 1853 to 1869. They cover the entire period of our Territorial history; during which time the *Tribune* gave full information concerning the exciting affairs of Kansas. They also embrace the period of the War of the Rebellion. They are store-houses of historical information relating to the most eventful period of the history of the country.

The late Dr. F. L. Crane had previously given the Society nine volumes of this paper, from February 5, 1848, to January 1, 1853. Other more recent volumes have been given the Society, and it is probable that a complete set will eventually be obtained.

The regular issues of 527 newspapers and periodicals are now being received, of which 456 are being published in Kansas, namely: Weeklies, 402; dailies, 21; monthlies, 29; quarterlies, 4. All of the Kansas newspapers and periodicals are voluntarily given the Society by the publishers. By constitutional provision, the editors and publishers of Kansas newspapers and periodicals so contributed become members of the Society by virtue of such gift. The publications of this class received from other States are also chiefly gifts to the Society.

MANUSCRIPTS.

The manuscript accessions number 7,018. Of these, nearly 6,000 are the gift of Hon. Samuel N. Wood, embracing a considerable portion of his correspondence and papers, accumulated since he became a resident of Kansas, in 1854.

General James Blood, of Lawrence, who was Treasurer of the Kansas State Central Committee in 1856-7, has contributed 631 manuscript papers, and eight books of receipts and accounts of the committee. This committee was appointed to dispense the bounties given the settlers of Kansas through the National Kansas Committee, and many thousands of dollars were distributed by the local committee of which General Blood was Treasurer. The papers contributed show the important work of the committee.

A gift of manuscripts has been made by Mr. Frederick Law Olmstead, of Brookline, Mass., relating to work done by him and associates in the city of New York, in the fall of 1855, in procuring for the Free-State settlers in Kansas, arms which were deemed necessary for defense against the Border

Ruffians in our early history. Mr. Olmstead and his associates were enlisted in this work in behalf of Kansas by Major J. B. Abbott, who visited the Eastern States for that purpose. Among the arms thus procured and sent out was a mountain howitzer, which is now among the collections of the Society. In the list given by Mr. Olmstead of the contributors in the purchase of the howitzer, are the names of Thos. McElrath, Wm. C. Bryant, Cyrus W. Field, David Dudley Field, Horace Greeley, Chas. L. Brace, Minthorne Tompkins, Paul Babcock, Frederick A. Conklin, Simeon Draper, Thaddeus Hyatt, Edwin D. Morgan, and many others whose names are scarcely less well known.

Hon. V. J. Lane, of Wyandotte, has contributed an interesting collection of manuscript papers illustrative of the early affairs of Kansas.

PICTURES, RELICS, &c.

Of the pictures added to the collection, a life-sized portrait of the late Governor of the State, Hon. Geo. W. Glick, a work of great merit and an excellent likeness, is especially noteworthy. This was donated to the Society by personal friends of the Governor.

Governor Frederick P. Stanton, during his visit to Topeka in September last, donated, in writing, to the Society, a marble bust of himself, which he has in his possession at his home in Virginia, and which will in due time be forwarded to the Society.

Mr. Orville C. Brown, the founder of Osawatomie, and a resident of Kansas during the entire Territorial period, now a resident of the State of New York, has given the Society portraits of himself and of his son, Spencer Kellogg Brown, who—then a lad—was taken prisoner at the sacking of Osawatomie, August 30, 1856, and who, though innocent, was ignominiously executed as a spy, at Richmond, Virginia, in 1863, thus giving his life willingly for his country. Other interesting relics of Osawatomie accompanied this contribution.

In this department, Mr. F. E. Jerome, of Russell, has made the commendable gift of seventy-four stereoscopic views, in part of Kansas, and all representing historic scenes; also, a gift of numerous prehistoric and other objects of interest from western Kansas.

In August last information was received from Leavenworth that the celebrated cannon known as "Old Kickapoo" was about to be shipped to the East to be melted down as old brass. Upon consultation among members of this Board, who were present here in Topeka, it was determined, if possible, to rescue the relic from such a fate. Learning a price for which it could be purchased from the junk dealer into whose hands it had fallen, the money was raised and the relic secured by payment of \$112, the amount demanded by the persons who had it in their possession, and it is now in our museum, subject to the action of the Society in refunding the money paid. For many years it has been the settled policy of the Society to expend none of its means in the purchase of relics, and it is believed that such

should continue to be the policy, unless in rare instances a purchase should be made by approval of a vote of the Society, or of the Board of Directors.

The relic spoken of is one connected with the most stirring incidents of our early history. It was brought to Kansas from Missouri by the Pro-Slavery party, and was present at the sacking of Lawrence, May 21, 1856. It was subsequently kept at Kickapoo, in Leavenworth county, in the care of the Kickapoo Rangers. It was present at the polls at that place, to influence the vote at the election under the Lecompton Constitution of January 4, 1858, but a night or two after that it was captured by Free-State men from Leavenworth. After that it remained for a time in concealment at Leavenworth and Lawrence. Subsequently it remained in the care of the Turners' Society at Leavenworth, during which time it was burst in some operation in the bottom of the Leavenworth coal shaft. The Board has approved the action of its members in saving this relic.

A number of war relics, may well be mentioned, among which are the sword of Major Lee H. Utt, of the Seventh Regiment of Kansas Volunteers (Cavalry), now a resident of Los Angeles, California; the sword of Colonel H. T. Titus, of Territorial fame; and a Beecher rifle. The first of these was contributed by Mr. John H. Utt, of White Cloud; the second by Mrs. Eunice A. Allen, now of Barnum, Colorado, who was the wife of the late Colonel James A. Harvey, who came into possession of the sword at the sacking of Titus's fort, near Lecompton, August 16, 1856. This interesting relic was brought in from Colorado by Col. S. N. Wood. The Beecher rifle was given to the Society by Hon. S. A. Baldwin, of Wabaunsee, who brought it to Kansas in 1856 as a member of the Connecticut Kansas Colony.

SCOPE OF WORK.

The early history of Kansas was peculiar, and the men and women who took part in putting in writing or in print some record of that history were widely scattered and very numerous. Hence there is scarcely a limit to the labor which may be expended in making up a historical collection. The correspondence in soliciting contributions, and in making acknowledgments, is only limited by the amount of time and labor within the command of the Society. It is by correspondence and travel that the most valuable of collections are made. Within the pigeon-holes, old boxes and nameless receptacles, and in out-of-the-way places, all over the country, are the materials of Kansas history which it is the province of the Society to hunt up and bring into its collections. Constant inquiry, examination and outlook appertain to this work. The examination of one paper, in print or in manuscript, brings to light a name, or mention of an event, which suggests inquiry and research, often involving no little time and labor; but labor seldom fruitless of good results.

In the current work of the Society, that of saving the materials of the history of the present, is not the least important. A library is being made up containing copies of every newspaper, periodical, pamphlet, catalogue,

report, or other publication now being issued from the Kansas press. Thus are being collected for permanent preservation the materials of the history of the affairs of the State and its institutions, of the proceedings of societies, courts, and municipal bodies, and of the details of passing events in every locality. It is the testimony of all collectors of historical libraries, as well as of all who consult them, that next to the recovery of the records of the past this saving of current publications is the best work a historical society can do.

A State society cannot in justice do otherwise than collect and preserve the publications in every part of the State. It is thus that the earliest history of the newest towns, and latest settled portions of the State, can now be saved. It is indeed true at this time, that, in a number of instances as to the newer counties, our library has on its shelves complete files of all the papers which have been published in such counties, now quite populous, but whose newspaper history began since the organization of our Society. Had a historical society begun this work when the settlement of Kansas commenced, not only files of all newspapers, but other records of priceless value pertaining to the older portions of the State now lost, would have been preserved, and a library of the materials of Kansas history could have been made complete. As it is, Kansas commenced this work early, compared with other States, and its collection of historical materials is correspondingly more complete than that of any other State.

CATALOGUE.

Our report shows a library of upwards of 20,000 volumes. These are classified, and placed on our shelves in the order most approved in the classification of libraries; but they are entirely uncatalogued, and therefore in a measure inaccessible to the public. It is of the utmost necessity that a catalogue should now be prepared, and an item of appropriations should be asked for to defray the expense of the same. The work of classifying the manuscripts of the Society has been done, so far as time would permit, and they are thus being put in readiness for cataloguing. Our collection of this class of historical matter is very large. These papers should be properly arranged and catalogued, to render them of value.
